

CLASSIC RANGE Electric Rosé

BLEND

70% Grenache, 30% Cinsault.

TERROIR

Mediterranean climate. Vineyards located in Provence. Clay-limestone soils with components of sand and marble.

WINEMAKING

Harvest done at night to preserve the grapes' quality and freshness. After destemming and gentle crushing, the grapes are cooled, softly pressed (direct pressing) then vinified separately. The fermentation occurs at low temperatures to protect the freshness and fragrance of the wine.

Ageing on fine lees, in stainless steel tank, during a maximum of three months.
The addition of sulfites is limited.

TASTING NOTES

A succulent wine of a profound and captivating hue. The perfume is an exotic mix of fruit, spices and candy. From the first sip, the palate is the perfect balance of tempered sweetness and crispy freshness.

VIGNERONS

The founder of French Beaches, Christophe Kaczmarek, nurtures a long friendship with the Bréban family in Provence. It has its origins deeply rooted there, precisely in the Var department, the famous "Green Provence", where wines of great freshness are produced. Since 1950, generations have succeeded each other and have pursued the vision of a region capable of producing high quality wines. The Bréban family is pioneer and key to the influence of Provence. French Beaches is proud to work with this great family to produce its dazzling rosé.
